EDUCATIONAL EVENTS
2013–2014
Royal College of Physicians of Edinburgh

EDUCATIONAL EVENTS 2013–14

The Royal College of Physicians of Edinburgh delivers an extensive programme of educational events and courses, which are attended by over 6,000 people annually.

RCPE Fellows and Members from around the world oversee the content of events.

Most events are held in Edinburgh and webstreamed live to a number of sites around the world, but some Symposia are held in other cities in the UK. See our website for details.

For those who aren’t able to attend, selected webstreamed lectures are also made available to RCPE Fellows, Members and Associates on our website. An online programme of specialty modules, which provides general medical updates across the range of medical specialties, is also available.

External UK CPD points can be claimed for attending RCPE Education events, in person or remotely.

For programmes, prices, and to book online visit http://events.rcpe.ac.uk/

Discounts are available at all grades of membership and some events are completely free to all delegates.

To request a live-link to an event(s) please contact Bryony Jackson at b.jackson@rcpe.ac.uk
