# **How to Measure your Tubing**

**Patient Information  
Audiology Department**

A decorative graphic consisting of two overlapping, stylized blue waves that curve upwards from the bottom left towards the right side of the page.

## How to measure your tubing

1. Place the earmould into the ear and the hearing aid behind the ear. Mark the tubing at the point illustrated, allowing for the overlap.

2. Remove the earmould and cut the tubing at this point.

### 3. Connect the hearing aid onto the earmould.

You can also use the old piece of tubing to estimate where to trim the new tubing.

**Please refer to our retubing instructions.**

**If you experience any problems, please do not attend the department. Our open access clinic is CLOSED due to Covid 19 restrictions.**

**Contact can be made by phone or email:**

### **If you can't go let us know!**

Every month around 2,000 people across Forth Valley fail to turn up for hospital appointments. This costs the NHS millions of pounds each year and increases waiting times.

So if you are unable to attend, or no longer require your hospital appointment, please let us know so we can offer it to someone else.

## **SMOKING IS NOT PERMITTED ON NHS FORTH VALLEY PREMISES**

This includes corridors, doorways, car parks & any of our grounds. If you do smoke on NHS premises you may be liable to prosecution and a fine.
