PROGRESS

Ward 5 MH are aiming to improve the completion of 1:1 care plan reviews to 80%.

We are using Teams based approach in A21 and MH Wd 5 to support SPSP improving Falls and Falls with Harm!

Current Teams...

Preparation Stage – Trystview

Active Teams – MH Wd 1, MH Wd2, MH Wd 5, CADS South, Day medicine, A21 and Dollar HC

Independent Teams - Wd 3 MH

Find out about the milestones in the [HIS Value Management Collaborative Interim Learning and Impact Report](#)

In the preparation stage we welcome....

Trystview, Belsdyke Hospital

Forth Valley had a fantastic opportunity to share some of the great work our Teams have been doing at the VM National Event on 5th May. For more information click on the link. [IHub](#)

FEEDBACK FROM THE TEAMS..

Our project began with a small number of patients with diabetes and on gaining confidence we have now rolled this out to all our patients with hypertension.

I can recommend the value management process but encourage formal training to take place prior to the launch of new quality improvement projects.

Linzi Bryce
ANP/Practice Nurse.
Dollar Health centre.

**NEXT STEPS: Cohort 5 commencing August 2022
Local Learning Event October 2022**
