

# How to...Grow Potatoes

**You'll Need : Seed Potatoes, Egg Box, Peat Free Compost,  
Large Tub or a Potato Bag.**

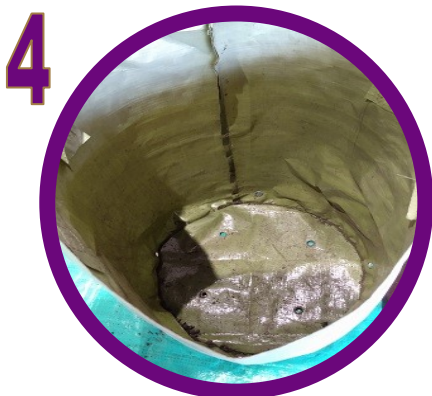

**1** Collect your equipment - bag of compost - approx 50L - Seed potatoes 3 or 4 per bag/tub.

**2** Place seed potatoes in egg box or tub. Leave in a warm space, away from direct sunlight.

**3** In a few weeks your seeds will have sprouted 'potato eyes'.

**4** Make sure there are holes in the bottom of your bag. Place 10cm of compost in bag.

**5** Place seed potatoes on top of compost, eyes up and space them out. Cover with compost.

**6** Cover new growth with more compost. Keep doing this until compost reaches the top of bag.

**7** Water plants when it's very dry. Let it flower, the bees will enjoy.

**8** When the flower dies back, harvest when you need them.

**9** Ready for use in our 'How to' recipes - Enjoy!
